WHO WE ARE

Darfadar is an innovative brand in Egypt offering customizable and durable window and door systems, including casement, sliding, folding, and more. We cater to both homes and offices, providing competitive prices and a range of sizes. Darfadar's laminated profile production line uses high-quality, weather-resistant color film to match interior design.

We offer a remarkable 10-year warranty and are certified environmentally friendly with a 100% heavy metal-free manufacturing process by EPD according to ISO:14025 standards from IBU EPD in Germany.

A diagram of a window frame with multiple panes. A central vertical bar divides the frame into two main sections. The left section contains four horizontal bars representing glass panes. The right section contains three horizontal bars. A callout box is positioned over the left section, listing five types of glass: Fume glass, Clear glass, Frosted glass, Glass with Georgian, and Glass without Georgian. The background of the slide features faint, overlapping window frames.

Why Darfadar U-PVC ?

Windows are a great option if you're looking for new double or triple glazing to help insulate your home.

Here are some of the key benefits:

- . Very easy to maintain and clean.
- . Naturally warm material and the multi-chambered frames of UPVC are great for insulation.
- . Lightweight material, which makes UPVC double or triple glazed windows quick and easy to install.
- . Can last up to 20 years in great condition, meaning your investment will be one that lasts.
- . They will also not lose their colour or fade at all during their lifespan.
- . There are also a wide variety of colour choices.
- . We guarantee all our UPVC windows for 10 years – they won't rot, they won't peel, they won't warp.
- . It does not rot, rust, blister, or flake, and is not affected by salt corrosion.
